Human Rights Major
Course descriptions
The field of concentration in Human Rights gives students an understanding of the legal instruments, norms, and institutions that constitute contemporary human rights law, as well as the social movements, cultural practices, and literary and artistic representations that have and continue to imagine the human rights ethic in various ways. In recent years, the human rights dimensions of many of the most vexing and pertinent issues at the global, national, and local level have gained prominence – including the problems of environmental deterioration, economic inequality, and ethnic and religious conflict. Students who major in Human Rights will be better equipped not only to understand the complex nature of these and other issues, but also to develop and pursue novel approaches toward a better world. In addition to
studying the manifold histories, theories, and practices of human rights in a systematic and comprehensive manner, students majoring in Human Rights will also develop more specialized methodological and topical expertise in a second discipline.

To complete the Major in Human Rights, students are required to complete an additional, primary major offered in the College of Liberal Arts and Sciences or an additional degree program offered in another University School or College. For students completing a double major within the College of Liberal Arts and Sciences, a minimum of 48 credits without overlap is required to earn both majors and students will receive one degree appropriate to their primary major.

For students completing a dual degree, at least 30 degree credits more than the degree with the higher minimum-credit requirement must be completed (a minimum of 150 credits) and students will receive a Bachelor of Arts in Human Rights along with another degree appropriate to their second program.

It is recommended that Human Rights majors declare their primary major by the end of their third semester.

**Recommended course:** HRTS 1007

**Requirements for the Major in Human Rights**

Undergraduate majors must complete a total of 36 credits: 9 credits of core courses with at least one course in each of groups A, B and C; 12 credits of elective courses from the lists of core courses (A, B and C) or elective courses; 12 credits of related courses as approved by the Director of the Human Rights Major; and HRTS 4291 or 4996W.

**2021-281**  
**Economics**  
Revise Major

**Current Copy:**

A student majoring in economics should acquire a thorough grounding in basic principles and methods of analysis, plus a working competence in several of the specialized and applied fields. Examples of such fields are industrial organization, law and economics, money and banking, international trade and finance, public finance, labor economics, health economics, urban and regional economics, and economic development. The major in economics can lead to either a Bachelor of Arts or a Bachelor of Science degree.

Course work in economics serves a wide variety of vocational objectives. An economics major (supplemented by a rigorous calculus and statistics course sequence) is excellent preparation for graduate work in economics, which qualifies a person for academic, business, or government employment. Majors and others with strong economics training are attractive prospects for business firms and government agencies, and for professional graduate study in business or public policy. An economics background is especially desirable for the study and practice of law. The economics B.S. is recommended for students
interested in professions that call for quantitative skills. The B.S. is especially recommended for Honors students and students considering graduate school in economics or other quantitative areas.

For an economics major that leads to a Bachelor of Arts degree, students must learn twenty-four credits in courses at the 2000 level or above, including two intermediate theory courses \( \text{ECON 2201 or 2211Q and 2202 or 2212Q} \), plus at least nine credits in either quantitative skills courses \( \text{ECON 2301–2328} \) and/or ECON courses at the 3000 level or above. No more than six credits in \( \text{ECON 2499} \) and/or \( \text{3499} \) may be counted toward the required 24 credits in economics courses at the 2000 level or above. \( \text{ECON 2481} \) does not count toward fulfilling the major requirements.

Economics B.A. majors are also required to pass twelve credits in 2000-level or above courses in fields related to economics or to fulfill a minor related to economics. In addition, all Economics majors must take \( \text{STAT 1000Q or 1100Q} \) and one of the following: \( \text{MATH 1071Q, 1131Q, 1151Q or 2141Q. STAT 1100Q} \) is recommended over \( \text{STAT 1000Q} \). \( \text{ECON 2311Q} \) is a recommended course for the B.A. Students may substitute more advanced MATH and STAT courses with consent of the faculty advisor.

For an economics major that leads to a Bachelor of Science degree, students must take \( \text{STAT 1000Q or 1100Q} \) (\( \text{STAT 1100Q} \) is recommended over \( \text{STAT 1000Q} \)) and one of the following MATH sequences: \( \text{MATH 1131Q (or 1151Q) and 1132Q (or 1152Q); or MATH 2141Q and 2142Q. In addition, B.S. majors must also take one of the following: MATH 2110Q or 2130Q or 2210Q or 2410Q or 2420Q. Students may substitute more advanced MATH and STAT courses with consent of the advisor.}

B.S. students must take one of the following science sequences in Biology, Chemistry, or Physics:

- Biology: \( \text{BIOL 1107 and either BIOL 1108 or 1110} \).
- Chemistry: \( \text{CHEM 1124Q, 1125Q, 1126Q; or CHEM 1127Q, 1128Q; or CHEM 1137Q, 1138Q; or CHEM 1147Q, 1148Q.} \)
- Physics: \( \text{PHYS 1201Q, 1202Q; or PHYS 1401Q, 1402Q; or PHYS 1501Q, 1502Q; or PHYS 1601Q, 1602Q.} \)

One of these courses may be used to fulfill the CA 3 lab requirement of the University’s general education requirements. In addition, students must take one other CA 3 course from a different subject area, but it need not be a lab course.

B.S. majors must also earn 29 credits in courses at the 2000-level or above, including two quantitative intermediate theory courses \( \text{ECON 2211Q and 2212Q; a sequence in econometrics (ECON 2311Q and 2312Q); and at least six credits from the following modeling and methods courses ECON 2301, 2326, 2327, 3208, 3313, 3315, 4206, 4323. Students may substitute equivalent graduate-level courses with consent of the advisor. B.S. majors may fulfill the requirement for ECON 2211Q and 2212Q by taking ECON 2201, 2202, and 2301, in which case ECON 2301 cannot be used to fulfill the requirement for six credits in modeling and methods courses. B.S. majors may not count ECON 2481 toward the major, nor may they count more than six credits in ECON 2499 and/or 3499.}

B.S. majors are also required to pass 12 credits in 2000-level or above courses in a field or fields related to economics. These related area courses may count toward a minor in a field related to economics. For both the B.A. and B.S., the intermediate theory courses \( \text{ECON 2201 or 2211Q and ECON} \)
2202 or 2212Q) should be taken early in the student’s major program. The department has special requirements for economic majors in the University Honors Program.

Economics majors satisfy the information literacy competency by passing at least one W course in Economics. Students may gain enhanced competence in information literacy by taking ECON 2311Q, 2312Q, 2326, or 2327. Economics majors satisfy the writing in the major requirement by passing at least one W course in Economics.

A minor in Economics is described in the “Minors” section.

ECON 2481 does not count toward fulfilling the major requirements.

Economics B.A. majors are also required to pass twelve credits in 2000-level or above courses in fields related to economics or to fulfill a minor related to economics. In addition, all Economics majors must take STAT 1000Q or 1100Q and one of the following: MATH 1071Q, 1131Q, 1151Q or 2141Q. STAT 1100Q is recommended over STAT 1000Q. ECON 2311Q is a recommended course for the B.A. Students may substitute more advanced MATH and STAT courses with consent of the faculty advisor.

For an economics major that leads to a Bachelor of Science degree, students must take STAT 1000Q or 1100Q (STAT 1100Q is recommended over STAT 1000Q) and one of the following MATH sequences: MATH 1131Q (or 1151Q) and 1132Q (or 1152Q); or MATH 2141Q and 2142Q. In addition, B.S. majors must also take one of the following: MATH 2110Q or 2130Q or 2210Q or 2410Q or 2420Q. Students may substitute more advanced MATH and STAT courses with consent of the advisor.
B.S. students must take one of the following science sequences in Biology, Chemistry, or Physics:

- Biology: BIOL 1107 and either BIOL 1108 or 1110.
- Chemistry: CHEM 1124Q, 1125Q, 1126Q; or CHEM 1127Q, 1128Q; or CHEM 1137Q, 1138Q; or CHEM 1147Q, 1148Q.
- Physics: PHYS 1201Q, 1202Q; or PHYS 1401Q, 1402Q; or PHYS 1501Q, 1502Q; or PHYS 1601Q, 1602Q.

One of these courses may be used to fulfill the CA 3 lab requirement of the University’s general education requirements. In addition, students must take one other CA 3 course from a different subject area, but it need not be a lab course.

B.S. majors must also earn 29 credits in courses at the 2000-level or above, including two quantitative intermediate theory courses (ECON 2211Q and 2212Q); a sequence in econometrics (ECON 2311Q and 2312Q); and at least six credits from the following modeling and methods courses ECON 2301, 2326, 2327, 3208, 3209, 3313, 3315, 4206, 4323. Students may substitute equivalent graduate-level courses with consent of the advisor. B.S. majors may fulfill the requirement for ECON 2211Q and 2212Q by taking ECON 2201, 2202, and 2301, in which case ECON 2301 cannot be used to fulfill the requirement for six credits in modeling and methods courses. B.S. majors may not count ECON 2481 toward the major, nor may they count more than six credits in ECON 2499 and/or 3499.

B.S. majors are also required to pass 12 credits in 2000-level or above courses in a field or fields related to economics. These related area courses may count toward a minor in a field related to economics. For both the B.A. and B.S., the intermediate theory courses (ECON 2201 or 2211Q and ECON 2202 or 2212Q) should be taken early in the student’s major program. The department has special requirements for economic majors in the University Honors Program.

Economics majors satisfy the information literacy competency by passing at least one W course in Economics. Students may gain enhanced competence in information literacy by taking ECON 2311Q, 2312Q, 2326, or 2327. Economics majors satisfy the writing in the major requirement by passing at least one W course in Economics.

A minor in Economics is described in the “Minors” section.

Prerequisites: None.
Grading Basis: Graded

Instructor consent required. May be repeated for credit with a change in topic.

Current Copy:

HDFS 5342. Parent Education
3.00 credits
Prerequisites: Open to graduate students in Human Development and Family Sciences, others with instructor consent.
Grading Basis: Graded

Planning, implementation, and evaluation of parent education programs for individuals and groups. Development and use of materials for such programs.

Proposed Copy:

HDFS 5342. Parenting, Parenthood, and Family Science Interventions
3.00 credits
Prerequisites: Open to graduate students in Human Development and Family Sciences, others with instructor consent.
Grading Basis: Graded

Parents’ roles, identities, and behavior and the dynamics of parenthood across the lifespan. Interpersonal, familial, and societal roles of parents and the interventions that support individual parent and family well-being outcomes are presented.

Proposed Copy:

GSCI 4440. Dates and Rates in Earth and Environmental Science
3.00 credits
Prerequisites: GSCI 1050 or both GSCI 1052 and one of GSCI 1010 or 1051 or 1055 or 1070 or GEOG 1070; or ANTH 2501; or EEB 2245; or CHEM 1127Q and 1128Q; or permission of instructor.
Grading Basis: Graded

Introduction to the principles, materials, and diverse applications of commonly used geochronologic methods in geologic, environmental, archeological, and planetary studies, including the timing and tempo of planetary formation, Earth processes, natural hazards, formation of natural resources, biotic evolution, and environmental change.

Revise Course G)(S)

Current Copy:

SOCI 1251. Social Problems
3.00 Credits
Prerequisites: RHAG students cannot take more than 22 credits of 1000 level courses.
Grading Basis: Graded

Major social problems, their sources in the organization of society, public policies for their alleviation, and questions of ethics and social justice: alcohol and drug abuse, physical and mental illness, sexual variances, poverty and inequality, ethnic and racial prejudice and discrimination, women and gender, the changing family, violence, crime and delinquency, the environment, urban problems, and population planning and growth. CA 2. CA 4.

SOCI 1251W. Social Problems
Prerequisites: ENGL 1007 or 1010 or 1011 or 2011 or 3800. RHAG students cannot take more than 22 credits of 1000 level courses.
Grading Basis: Graded

Proposed Copy:
SOCI 1251. Social Problems
3.00 Credits
Prerequisites: RHAG students cannot take more than 22 credits of 1000 level courses.
Grading Basis: Graded
An examination of contemporary social problems, how institutional and organizational features of
societies generate social problems, public policies for their alleviation, and questions of ethics and social
justice. Topics might include substance misuse, mental illness, crime, social inequality, racism, gender
disparities, climate change, and human rights.

SOCI 1251W. Social Problems
Prerequisites: ENGL 1007 or 1010 or 1011 or 2011 or 3800. RHAG students cannot take more than 22
credits of 1000 level courses.

2021-289  10369  BIOL 2278  Add Course (S)

**Proposed Copy:**

BIOL 2278. Pathways to Academic Success in Biology
1.00 credits
Prerequisites: Open to freshmen and sophomores only
Grading Basis: Graded
Skills for academic success in undergraduate biology majors. Adjustment to campus life in Storrs.
Maximizing relationships with peers, faculty, and student support offices. Intended for students at regional
campuses.

2021-290  10565  BIOL 2279  Add Course (S)

**Proposed Copy:**

BIOL 2279. Research and Professional Skills in Biology
1.00 credit
Prerequisites: none
Restrictions: open to freshmen and sophomores only
Grading Basis: Graded
Building an effective resume. Best practices in professional communication. Navigating the research
landscape at UConn. How to identify and contact an appropriate research mentor. Intended for regional
campus students.
2021-291 Add Course (G)(S)

Proposed Copy:

PNB 3253W. Current topics in Molecular and Developmental Neurobiology
3.00 credits
Prerequisites: PNB3251. Open to Juniors and Seniors only
Recommended Preparation: PNB2274, PNB2275
Grading Basis: Graded

Current topics from primary literature. Molecular mechanisms of brain development.

2021-292 Add Course

Proposed Copy:

PNB 5001: Principles of Physiology and Neurobiology I
3.00 Credits
Prerequisites: None
Grading Basis: Graded

Description: Molecular foundations of physiology and neurobiology. Discussion of classic and emerging literature, experimental design, and research technologies. Topics may include genetics, protein biology, cell structure and function, and neurophysiology.

2021-293 Add Course

Proposed Copy:

PNB 5002. Principles of Physiology and Neurobiology II
3.00 Credits
Prerequisites: None
Grading Basis: Graded

Foundations of physiology and neurobiology. Discussion of classic and emerging literature, experimental design, and research technologies. Emphasis on systems physiology.
PNB 6415. Ion Channels and Physiology
3.00 Credits
Prerequisites: PNB5001 and PNB5002
Grading Basis: Graded

Exploration of major classes of ion channels, including ligand-gated, voltage-gated, mechanosensitive, thermosensitive and light-sensitive channels and their roles in physiology. Discussions of research approaches and emerging technologies in ion channel physiology.
